

# Assembly Guide

## Package Content

Seat

Front Legs

Hind Legs

Bottom of the seat

Turn the seat upside down. There are screws in the pre-drilled holes and metal pieces to mount hind legs.

Hind Leg Part

There is a bolt on the hind legs. Place the bolt on the hole in the middle of the metal piece. Attach the leg to the metal piece by turning it. It will look like the photo on the right.

Attached Hind Leg

Front Leg Part

There are bolt in the pre-drilled holes. Unscrew them first. Place the front leg in a way that holes on the seat and legs match each other. Place and screw to bolts as it is shown in the photo on the right.

Attached Front Leg

Turn the seat over its legs and it is ready to use.

## Product Care Instructions
