Dear Customer,

This product you have purchased has been subjected to all kinds of controls and tests by us before it reaches you. Even in this case, it is possible for some parts to be damaged during transportation. If you encounter such a situation, do not send the entire product back. Just ask for the damaged part. When requesting the required part, identify it exactly by looking at the service card. The missing part will be sent to you as soon as possible. Before starting the assembly, check all the parts and accessories in the boxes according to the lists. After determining that the parts and accessories are complete and solid, start the assembly. Before starting the assembly, clean each part with a damp cloth.

If you have purchased more than one product, after assembling a single product, switch to the other product in order not to cause any confusion. Never carry products by rubbing. Carry the product by at least two people by lifting and removing it. For long-distance transportation, you should definitely carry the product with a package.

It is very easy to clean the surfaces of the furniture you have bought. It is sufficient to wipe it with a damp and soapy cloth or other household cleaners. Since furniture is affected by extreme heat, cold and humidity, do not directly contact your furniture with these factors. Do not use your furniture for other than its intended purpose.
